CONVERSION

Bordeaux's proprietary Mix & Match concept enables on the fly conversion of the original ink to Bordeaux without the need to flush, replace parts and perform new color profiles in most configurations. Up to 40% of ink cost can be saved in comparison to original inks.

FOR BETTER PRINTING

CUT YOUR INK COST

COMPLIANCE

The abundance of printer technologies of different manufactures triggered Bordeaux's development of inks which are suitable for specific printers to enhance printing output performance while maximizing the printer's capabilities.

The inks have been formulated for full compatibility with each printer and preceded by rigorous testing on all of them. The inks can be installed on the printers without modifications for uninterrupted printing experience and better results.

All printer specific inks are packaged in OEM equivalent packaging for clean and easy installation and includes a printer-compatible chip.

Mix & Match Printer compatibility Printhead compatibility Packaging Colors

Remanufactured 775 ml Latex Ink Cartridges

Bordeaux is now producing two separate Premium Mix & Match inks in original OEM cartridges. One of these inks, called EDEN LX831 is fully compatible with HP 831A 775 ml Latex Series Ink. Bordeaux's EDEN LX792 is fully compatible with HP 792 775 ml Latex Ink cartridges.

Both of these inks allow users to simply switch from the HP OEM inks to the Bordeaux EDEN versions. There is no need to flush ink lines or change color profiles. Our ink is designed to match HP ink in both color and performance, enabling on-the-fly conversion of the OEM ink to Bordeaux.

Accommodating to the needs of all types of applications, this ink is ideal for high speed versatile print production with Printheads average expected ink usage of more than 4 liters.

EDEN LX831™		HP 831A Series Ink™ HP Latex 310/ 315/ 330/ 335/ 360/ 365/ 370/ 560/ 570 printers. 775ml OEM cartridge refilled with Bordeaux EDEN LX831 Latex inks C,M,Y,K,Lc,Lm
EDEN LX792™		HP 792 Series Ink™ HP Latex 210/ 260/ 280/ L26100/ L26500/ L28500 printers. 775ml OEM cartridge refilled with Bordeaux EDEN LX792 Latex inks C,M,Y,K,Lc,Lm

Dye sublimation

Bordeaux's dye sublimation ink provides high quality printing with outstanding productivity. Stringent quality assurance processes and cutting edge production technology guarantees the quality and consistency of our ink.
