RIGHT FOR YOUR BUSINESS

Digital Printing Media for indoor and outdoor advertising with high quality structure, surface and excellent performance, ready for signage, banners, displays, building wraps, backlit, floor and wall coverings, digital fine art, billboards, stands and tradeshow graphics.

Adhesive Vinyl

Loki Adhesive Vinyl

Economical short-term general signage for indoor/outdoor applications. Is an adhesive printable media with a heavy liner to prevent curling under heavy heat from some printing technologies. The based adhesive will give medium tack with a permanent bond after curing period (about 24/h)

- ☑ White
- ☑ Gloss and Matte
- ☑ 3mil (80 micron)
- ☑ 140g SC Kraft paper
- ☑ 54" x 150' (1.37m x 46m)
- ☑ Clear and Permanent
- ☑ Solvent, Latex & UV
- ☑ 1 year (unprinted)
- ☑ Stickers, Print & Cut, Decorations, medium and short-term signage

Clint B/O Adhesive Vinyl

Similar to the Loki Adhesive Vinyl with Grey adhesive for superior coverage and air release for easy application.

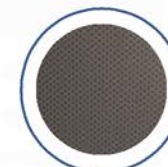

- ☑ White
- ☑ Gloss and Matte
- ☑ 3mil (80 micron)
- ☑ 140g SC Kraft paper
- ☑ 54" x 150' (1.37m x 46m)
- ☑ Grey Air Release Permanent
- ☑ Solvent, Latex & UV
- ☑ 1 year (unprinted)
- ☑ Stickers, Print & Cut, Decorations, medium and short-term signage

Ultron Aluminum Road

Is an Aluminum foil film with anti-skid surface. It is extremely durable material and with a super tack solvent base adhesive. It can stick to any surface and is ideal for outdoor long-lasting signs or anti-skid floor signage for garage and parking lots. Compared to vinyl it does not require heat for the application, doesn't shrink or fade and it last longer too

- ☑ Aluminum White
- ☑ Anti-Skid Rough
- ☑ 8mil (200 micron)
- ☑ 120g SC Kraft paper
- ☑ 47" x 50' (1.2m x 15m)
- ☑ Clear Super High Tack
- ☑ Solvent, Latex & UV
- ☑ 1 year (unprinted)
- ☑ Walkways, asphalt or concrete floor. Brick or concrete walls

Scarlet Re-Apply Vinyl

With a low tac dot adhesive has a special re-application property. As long as the adhesive doesn't get dirty it can be used multiple times. It is extremely easy to apply and remove. An economical short-term general signage for indoor/outdoor applications. Ideal for window graphics and DIY projects.

- ☑ White
- ☑ Satin
- ☑ 4mil (100 micron)
- ☑ 140g SC Kraft paper
- ☑ 54" x 150' (1.37m x 46m)
- ☑ Clear Solvent DOT Pat.
- ☑ Solvent, Latex & UV
- ☑ 2 years (unprinted)
- ☑ Stickers, Print & Cut, Decorations, medium and short-term signage for re-usable or repositionable applications

Torch Reflective Vinyl

Is a short-term reflective adhesive film indoor/outdoor applications. Is an adhesive printable with excellent reflective properties. The based adhesive will give medium tack with a permanent bond after curing period (about 24/h). This fil will add luminosity to your projects. Either printer or not Torch film will make your graphic to stand out. A long last lamination will extend the outdoor durability.

- ☑ Reflective White
- ☑ Gloss
- ☑ 6mil (130 micron)
- ☑ 150g SC Kraft paper
- ☑ 47" x 100' (1.2m x 30m)
- ☑ Clear Super High Tack
- ☑ Solvent, Latex & UV
- ☑ 1 year (unprinted)
- ☑ Stickers, Print & Cut, Decorations, medium and short-term signage where reflectivity is needed

- Solvent, Latex & UV
- 1 year (unprinted)

Thor Micropeft Premium

Is similar to the Iron with mid-term and extra heavy liner to prevent curling under heavy heat from some printing technologies. Thor OWW has a special embossed liner for UV printing. The embossed liner prevents the ink to form a solid layer around the holes.

- White
- Satin
- 7mil (180 micron)
- 160g SC Kraft paper
- POP, retail, commercial and vehicle window signage
- 38" x 100' (0.97m x 30m)
- 54" x 100' (1.37m x 30m)
- 60" x 100' (1.60m x 30m)
- Black and Permanent
- Solvent & UV
- 2 years (unprinted)

Wall Solutions

Mystique Wall Paper

Is heavy canvas textile wallcovering printing media. It is PVC free with an environmentally friendly construction and dimensionally stable and tear-resistant wall decor. The adhesive has a strong tac while gentle removable characteristic to protect the wall. Because it does not shrink it allows to make invisible seams. The thickness of the material helps cover wall imperfections.

- White Polyester Textile
- Matte
- 12mil (305 micron)
- 140g SC Kraft paper
- Wall indoor decoration
- 54" x 100' (1.37m x 30m)
- Clear Low Tack Removable
- Solvent, Latex & UV
- 1 year (unprinted)

Groot Exterior Wall Vinyl

Is a long-term printable vinyl for rough exterior wall. Because of the thickness of the media it is ideal for all type of printing technology. The super high tack adhesive makes a strong bond to all concrete surfaces. For long lasting applications it is recommended to be combined with premium polymeric or cast lamination.

- White
- Satin
- 6mil (150 micron)
- 140g SC Kraft paper
- Wall Outdoor decoration
- 54" x 150' (1.37m x 46m)
- Clear and Super High Tack
- Solvent, Latex & UV
- 3 years (unprinted)

Banner, Mesh & Textile

Captain Banner

Strong scrim reinforced with PVC film. Suitable for all wide format printing systems. It is an ideal choice for front-lit billboard, and it is widely used in indoor and outdoor advertising. Because of its excellent price-quality it is the main choice for general banner usage.

- White / White
- Gloss and Matte
- Laminated PVC Film
- Solvent, Latex & UV
- Applications like Front-Lit, Back-Lit, Banner & Billboard
- 38", 54", 63" & 126" x 150'
- 96, 137, 160, 320cm x 46m
- 13oz 1000x1000D 9x9
- 1 year (unprinted)

Hulk Banner

IOHDA Coated PVC Inkjet Media suitable for all wide format printing systems. It is an ideal choice for front-lit billboard, and it is widely used in indoor and outdoor advertising. High tensile, tear resistance and excellent abrasion and delamination resistance makes it ideal x high demanding application like awnings and truck curtains.

- White / White
- Matte
- Coated PVC Film
- Solvent, Latex & UV
- Applications like Front-Lit, Back-Lit, Banner, Billboard, Awning & Truck Curtain
- 38" 54" 63" 98" 126" x 150'
- 96 137 160 250 320c x 46m
- 13oz 1000x1000D 18x18
- 1 year (unprinted)

Bucky Grey Back Roll-up

Specially design for roll-up banner displays. It was formulated to avoid curling of the edges. The surface is smooth with a special PVC coating for incredible dot gain for high resolution printing.

- White / Grey
- Satin
- Coated PVC Film
- Solvent, Latex & UV
- Roll-ups one side printed
- 38" x 100'
- 96cm x 30m
- 13.2oz
- 3 months (unprinted)

Panther Double Roll-up

Similar to the Buck Roll Up with high-density fabric Coated with high grade PVC makes a smooth stable surface ideal for high quality graphics. An internal black layer makes it completely opaque allowing a double sided print.

- White / White
- Satin
- PVC Coated
- Solvent, Latex & UV
- Roll-ups 1 and 2 sides printed
- 38" & 54" x 100'
- 96 & 137cm x 30m
- 13.2oz
- 5 months (unprinted)

Spider Mesh

Mesh type with holes there is less wind resistance and good ventilation with less weight. Ideal to make construction covers and fence banners. The liner prevents the ink to move to the revers of the mesh during printing.

- White / White
- Satin
- Woven
- Solvent, Latex & UV
- Is an ideal choice for front-lit ventilated covers. Is widely used in indoor and outdoor advertising
- 54", 80" & 126" x 150'
- 137, 203 & 320cm x 46m
- 13.2oz 12x12
- 1 year (unprinted)

Mantis Textile

Is a lightweight polyester fabric ideal for backlit lightboxes. The specialized coating features outstanding color and excellent image resolution. This is a multi-use fabric that can be use for a wide range of applications. This fabric is the best combination of cost-effective.

- White / White
- Satin
- Textile
- Solvent, Latex & UV
- Low glare reflection, it is widely used for photo backings.
- 54" & 126" x 150'
- 137 & 320cm x 46m
- 5oz
- 6 months (unprinted)
