Physical Properties - Double Sided Rollup Banner

Type	Values	Standard
Base:	Polyethylene Terephthalate	
Thickness	145 micron	
Coating:	PVC	
Total Weight(g/sqm):	440±15g (13.2 Oz)	
Tensile Strength(L):	1182N/5cm	DIN53352
Tensile Strength(W):	1173N/5cm	DIN53354
Tearing Strength(L):	34N/5cm	DIN53354
Tearing Strength(L):	27N/5cm	DIN53363
Peeling Strength(L):	can't peeling	DIN53363
Peeling Strength(W): can't peeling	DIN53363	DIN53363
Temperature		-30~70℃

Storage (shelf life)	2 years (Excess temperature and humidity will shorten stability and shelf life)
Outdoor durability	3 months (physical properties of the material) Printing durability will depend on printing technology, inks, application and handling

Statement: All technical information herein is based on private tests and does not warrant or guarantee the accuracy or completeness of this information. Printing quality, color matching and adhesion may vary on different printing systems. For special applications independent testing would be recommended. For more information visit www.iohda.com
